At Least Twelve Deaths Attributed To Cold and High Winds in the West

Worst Cold Wave of Winter Causes Suffering and Hampers Traffic in Some States

Blizzard Disrupts Communications; Expected to Penetrate Southeast and Reach Florida

(By The Associated Press) Buffeting winds whistled the worst cold wave of the new winter toward the Atlantic seaboard last (Tuesday) night.

Temperatures fell as the frigid weather advanced to the East and South from the icy west, where sub-zero readings were reported in 10 states and a minimum of 37 below zero was recorded at Warroad, Minn., on the Canadian border.

At least a dozen deaths were attributed to wind, cold and slippery highways. Snow, sleet and rain hampered traffic in many districts.

Snow ranging up to eight inches shifted quickly in Michigan but off-shore gales abated as the thermometer dropped toward zero.

Marquette was virtually snow-bound. Manistique was without telegraph or telephone service. The coast guard reported the strongest seas in years swept off Lake Michigan.

The blizzard disrupted communications at Sault Ste. Marie and between Petoskey and the straits of Mackinac. Some secondary roads were blocked by six foot snow hummocks in lower Michigan while the fall measured between 12 and 19 inches in the upper peninsula.

A 61-mile-an-hour gale roared through Buffalo, N. Y. Ropes were strong along some streets in the business section to enable pedestrians to keep their feet. One man there died of exertion while chasing his hat. Another succumbed to a heart attack while bucking the wind.

Toledo, O., was threatened with the loss of its water supply. A steady, 30-mile wind blew the water away from the intake pipes in the Maumee river and into Lake Erie. The river dropped seven and a half feet from its normal level.

Guide ropes were stretched along downtown sidewalks in Erie, Pa., when the wind reached a velocity of 46 miles an hour. Waves on Lake Erie, lashed to a height of 30 feet, bowled over trees on Presque Isle State Park.

Snow flurries swirled across Western Pennsylvania in the wake of a week-end storm. A temperature of 10 above zero was forecast.

The wintry belt extended from Canada almost to the Texas coast. It was expected to broaden rapidly. Forecasters said the cold blast would penetrate the Southeast over-

Hagerstown Police Start Out To Raid Shack in Search for Girl

Hagerstown, Md., Dec. 27 (P)—A posse of Hagerstown police and a deputy sheriff prepared to raid a mountain shack tonight in an effort to find Jane Akowsky, 17, whose father reported he feared she was abducted Christmas Eve.

Police Captain William H. Peters said he received information the girl was seen in an automobile driven by a man who was identified as a farmer living in the mountains eight miles north of Hagerstown.

The posse which started out from the Hagerstown police station at 9:45 p. m. armed with shotguns and revolvers, was composed of Captain Peters, Lieutenant Edward Chapman, Lieutenant Joseph Desmond and Deputy Sheriff Robert Clingman. They said they were "prepared for plenty of trouble."

The girl, a graduate several months ago from St. Mary's school, was described to police as devoutly religious. Her father, Carl Akowsky, a checker at a local junk yard, said

## Bethlehem Steel Asked To Abolish Employe System

Twenty-Year Old Plan Is Claimed Contrary to Wagner Act

Official of National Relations Board Urges Change

Washington, Dec. 27 (P)—A trial examiner for the National Labor Relations Board recommended today that the Bethlehem Steel company abolish its 20-year old employee representation plan. He declared that it violated the Wagner Labor Act.

The recommendation was embodied in an intermediate report to the board by examiner Frank Bloom who conducted a 10 months inquiry into Bethlehem's labor policies in a complaint filed by the Steel Workers Organizing Committee (CIO).

Eugene G. Grace, president of Bethlehem Steel Corp. and its subsidiary, Bethlehem Steel Co., was credited with instituting the plan in 1918 as a by-product of World War conditions.

Grace said it was a means of giving workers a voice in shaping policies concerning conditions of employment.

Bloom ruled that the steel company had engaged in unfair labor practices by "dominating and interfering" with the formation and administration of the plan in Bethlehem's nine plants, and by suppling financial and other support for its maintenance.

Thus, he said, employees were denied their right, under the Wagner Act, to choose their own representatives freely.

His findings and recommendations proposed that the company post notices stating that it had withdrawn recognition of the plan. If the company fails to carry out Bloom's recommendations within 10 days, he suggested that the board issue a formal order requiring compliance.

Bloom's report covered the operations of the plan and the CIO steel strike at Johnstown, Pa., in June 1937.

The respondents (Bethlehem) expressed in many ways their dislike of outside unions and their preference for the plans which they themselves had originated and installed in the various plants of the company.

Hot Springs Hotel In Receivership; Owes \$2,820,900

Hot Springs, Va., Dec. 27 (P)—The Virginia Hot Springs Company, operator of the fashionable home-stead resort hotel, was placed in emergency receivership in Bath county Circuit Court today upon a petition fixing its approximate indebtedness at \$2,820,900.

Pay Ingalls, president of the company since 1922 and its largest stockholder, was listed among the complainants. Circuit Judge Benjamin Haden appointed him to act as receiver until Jan. 26.

It is said he has been in active charge of operations since 1932, explained after the decree had been entered that "the application for the receivership was made in order to avoid closing the hotel."

Listed as complainants with Pay Ingalls were Albert S. Ingalls, David S. Ingalls, George Howard Ingalls, George H. Warrington and William Hale Harkness.

Two of the defendants, the Virginia Hot Springs Company and Jane Taft Ingalls, admitted the allegations of the bill which recited how a series of annual deficits from 1931 onward had turned a surplus into a deficit of \$729,000. These defendants concurred in prayers of the bill.

Also named as defendants were the First and Merchants National Bank of Richmond, substituted trustee, Lawyers Title Insurance Corporation, trustee, Federal Reserve Bank of Richmond, and Virginia Trust Company, trustee.

It was pointed out in the bill that an effort to obtain an RFC loan had failed because of the prior liens of certain mortgages or because of their early maturities. This loan was intended for bond interest due January 1, and for necessary operating outlays.

The secured indebtedness of the company was approximated at \$1,255,400 and the unsecured at \$1,585,500.

A hearing will be held January 20 on a motion to extend the receivership.

Her disappearance was reported by the father early Christmas morning. He said he saw her last when she went to her bedroom Saturday evening and asked to be awakened in time for midnight mass.

Police investigations disclosed she was seen that night talking to a "dark young man about 28 years old" at a corner near her home. The man, whose name police withheld, was seated in a dilapidated automobile, Captain Peters said.

Radio broadcasts and newspaper publicity failed to turn up clews, Captain Peters said, until tonight when a neighbor of the "dark young man" said, he had seen her near the mountain shack.

The girl was described as having light brown hair, a fair complexion, very quiet, attractive. She weighed 140 pounds, police said.

## France Rushes Fast Warship To Djibouti

Move Apparently Taken To Counter Italian Designs Upon Somaliland

D'Iberville May Be Advance Guard of Naval Reinforcement Sent to East Africa

French Officials Decline To Elaborate on Plans To Combat Recent Military Threat

Paris, Dec. 27 (P)—A French warship sped tonight toward Djibouti, strategic Red Sea port, apparently to counter Italian designs on the French empire which unconfirmed reports indicated had crystallized in a military threat against French Somaliland.

Unusual photo of Neville Chamberlain, British prime minister, telling banquet listeners that his German policy of moderation did not mean Britain was weak. It was this speech which the German ambassador in London refused to come to hear, because Chamberlain attacked the German press.

The reinforcements were understood to have been ordered in response to an appeal from the governor of French Somaliland of which Djibouti is the capital.

Bloom's report covered the operations of the plan and the CIO steel strike at Johnstown, Pa., in June 1937.

Hopkins Hopes to Get Jobless Back At Private Work

Congressmen Interested in Plans of New Secretary

Said To Have Prepared Fairly Definite Program

Washington, Dec. 27 (P)—Members of Congress heard with interest today that Secretary Hopkins was considering a national campaign to find jobs in private industry for the unemployed.

Most of the legislators reserved comment, however, until they could learn more about what the new Secretary of Commerce has in mind.

It was learned that Hopkins has sounded out several leaders of the business world about a drive to create a "re-employment psychology."

Just how this might be done was not disclosed. Well-informed persons said, however, that study of the possibility had progressed to the point where a fairly definite program has been outlined—one that could be undertaken within a few weeks so as to take advantage of the expected seasonal upturn in business next spring.

Hopkins, it was said, intends to rely greatly upon the Commerce Department's Business Advisory Council and other organizations of business men to carry it out.

He already has asked the council, which was organized by his predecessor, Daniel C. Roper, to continue.

The present head of this group is W. Averell Harriman, chairman of the board of the Union Pacific railroad.

Comment from legislators today indicated anew that relief methods will be one of the foremost issues of the new Congress.

Senator-Elect Lucas (D-Ill.), who settled in his new Senate office, said that he believed the local communities must bear a portion of relief costs. Future Federal relief appropriations as large as those of the past are unlikely, he added.

Senator Tydings (D-Md.) said he thought the time had come for "more permanent long-range policies on relief."

Baltimore Leader Also To Support Sasser for Congress

Baltimore, Dec. 27 (P)—Major Howard W. Jackson, his gubernatorial ambitions wrecked and his political future left in doubt by the last elections, pledged himself today to full support in the legislature for the man responsible for the Italian campaign.

Out of the clamor over Tunisia, Somaliland, Corsica, Savoy and Nice and for concessions to broaden Italian rights-of-way in the predominantly French-controlled Suez canal and the Addis Ababa-Djibouti railway, the major Italian ambition appeared to be emerging—an annexation of Djibouti, gateway to Ethiopia.

While O'Connor's power in the legislature had previously been regarded as a certainty, regardless of Mayor Jackson's attitude, the latter's announcement to the press today that he would support Sasser for congress.

He estimated it cost \$48,224,377 to carry mail free for congressional government departments and blind persons, to subsidize air mail and perform "non-postal" functions.

Receipts for the year ending last June 30 totaled \$728,634,051 and expenditures amounted to \$772,445,607. This compared with expenditures of \$772,815,842 and revenues of \$726,201,109 in the previous fiscal year when the gross deficit was \$46,612 profit if it had not had the expense of its free services.

Love, Jackson street, yesterday afternoon, was married to Douglas Sutherland, son of Mrs. Belle Sutherland, Waterbury, Conn., at the manse of the First Presbyterian Church, here, with the pastor, the Rev. Seldon Adams, performing the ceremony, before the immediate family and friends.

The bride was attired in a saphire blue dress, with brown accessories, and wore a shoulder corsage of Gardenias and roses. The matron of honor, Mrs. William James, sister of the bride, wore a chianti wine dress, with matching accessories and a shoulder corsage of Talsim roses. Isaac Love, brother of the bride was best man.

The bride is a graduate of Central High School, here, and the Frostburg State Teachers College, Frostburg. She has been teaching in the Allegany county public schools since her graduation from the Frostburg school, and at present is a member of the faculty of the Hammond Street School, Westernport. She is well known throughout the county, and a host of friends attended the celebration at her home following the wedding.

The bride-groom, is a graduate of the Crosby High School, of Waterbury and the Springfield College of Connecticut. He later graduated from the Cincinnati School of Embalming, of Cincinnati, Ohio. He is now engaged in the undertaking business in his home town.

A wedding trip to New York and Waterbury, Conn., is being taken by the couple.

### Hitler Is Declared Most "Newsworthy"

New York, Dec. 27 (P)—Time magazine's man of the year 1938 is Adolf Hitler, selected by the editors as the most "newsworthy" in the past 12 months.

Instead of the customary photograph on the magazine cover, however, Time published an etching by Baron Rudolph Charles Von Ripper, Catholic emigre, showing der Fuehrer as "the unholy organist" playing a hymn of hate.

"His picture," the magazine explains, "symbolizes the desecration of Christian ideology in Nazi Germany."

## Dr. Concha Lauds Lima Conference At Final Session

### Chairman Declares It Has Amply Fulfilled Expectations

By ANDRUE BERDING

Lima, Dec. 27 (P)—The eighth pan-American conference, which brought the American republics into a solid bloc against foreign aggression, came to a close tonight as the chairman, Dr. Carlos Concha, Peruvian foreign minister, told a plenary session it had "amply fulfilled expectations."

The plenary meeting, coming after the delegations had signed a final act of the conference containing all the resolutions and declarations approved, heard Dr. Concha declare:

"We know that there has been great bitterness between nations," the white-haired Hull said in his prepared address. "X X X We know that in much of the world trust in any form of agreement has completely vanished. We know that might has stated it would have its way, and that it would recognize no equal except equal might. X X X Such is the world we may have to deal with."

Dr. Concha attributed extraordinary importance to the conference because of the declaration of Lima—the declaration of Western Hemisphere solidarity and defense against foreign aggression.

"It was urgently necessary for us to build up our proclaimed solidarity," he said, "and our facing of that duty and the satisfaction of such a fundamental condition give surpassing and exceptional value to the Lima assembly."

He added that with signing of the declaration Saturday the delegations could rightly congratulate themselves "that we have not defrauded the confidence of our peoples and were it indifferent to the voice of geography and history, and have assured great progress for our American community."

Dr. Concha said one of the outstanding features of the conference was the fact it emphasized the common lines of Western Hemisphere countries without at the same time suppressing individual characteristics of each republic.

A plenary session of the delegates who adopted approximately 130 resolutions and declarations, including one of continental solidarity for defense against aggression, heard a farewell address by Dr. Carlos Concha, Peruvian Foreign Minister and chairman of the conference.

The session was held after delegates affixed their signatures to the resolutions and declarations as the final act of the meetings which started Dec. 9.

Benavides, Hull Speak

On the program of a banquet following the session was an address by President Oscar Benavides of Peru and a reply by Secretary of State Cordell Hull.

United States delegates finished their packing this evening, drove to the nearby port of Callao and boarded the liner Santa Maria, which sails tomorrow. They changed into evening clothes aboard ship and returned to Lima for Benavides' banquet, intending to go directly to the ship after a subsequent reception.

Secretary Hull — who saw the conference come to a decision on acts designed to link American republics closer in mutual defense, communications and cultural relations — spent a part of the day making farewell visits to other heads of delegations.

One of the most significant events of the day was a farewell meeting of a bloc of twelve countries which developed unexpectedly before the conference and held together throughout.

The meeting was held in the hotel room of Juan J. Remos, Cuban Secretary of State, who played host to heads of delegations of Haiti, the Dominican Republic, Guatemala, Honduras, El Salvador, Nicaragua, Costa Rica, Panama, Mexico, Colombia and Venezuela.

Remos said meetings in that room during the conference had been historic. The bloc, although composed mostly of small states, held a voting majority in the conference and was able to put through its own slate of candidates for key committee positions. It may prove an important factor in future Pan-American relations.

## Milk Boycott in Baltimore Alarms State Commission

Baltimore, Dec. 27 (AP)—A milk boycott, resulting from a refusal of union dairy employees to unload milk from trucks operated by non-union drivers, drew Public Service Commission attention today to a situation "with serious possibilities."

Although the state agency emphasized it contemplated no action in the case, in the absence of a formal complaint, officials said they were keeping close watch on developments.

The boycott developed when union employees of the Fairfield-Western Maryland dairy here refused to unload milk from Tide-water Express Lines trucks, on grounds the truck drivers were not union members.

The truck company today notified the Public Service Commission and dairy farmers in Frederick and Carroll county that the dairy had "refused" to accept the farmers' milk and suggested it be consigned elsewhere.

Should the Public Service Commission grant a franchise to a union truck company to haul the milk, the Tide-water Company could rightly claim franchise infringement and labor discrimination, officials explained.

The commission's principal interest, they added, lay in the possibility one boycott might be a forewarning of others, as part of a new campaign to unionize truck drivers here. A renewal of this year's earlier trucking strike might reasonably tie up milk transportation seriously, officials said.

Move Apparently Taken To Counter Italian Designs Upon Somaliland

(Continued from Page One) plan capital, announced several times a day that the "taking of Djibouti is only a question of time" and that "the French will be thrown back into the sea."

Premier Daladier meanwhile completed preparation to visit the French North Africa protectorate, Tunisia, which was to be the occasion for a counter-demonstration of French force on the Western flank of Italy's North African colony Libya. He will visit both Corsica and Tunisia, starting Jan. 2.

Confers With Officials

The premier conferred with military and colonial officials and announced Erik Labonne, French resident general of Tunisia, would fly back to his post Friday.

Daladier will be accompanied by high-ranking officers of the army, navy and air force. A large escort, including the cruiser Berlin and a division of destroyers, was ordered.

Informed persons said an impressive display of French motorized forces in Tunisia would remind Premier Mussolini of Italy of the necessity of defending Tripoli, Libya's capital, if he were to attack Djibouti.

Travelers reaching Egypt from Djibouti, the French press reported, said the governor of French Somaliland already had received troop and naval reinforcements from France.

Dispatches direct from Djibouti said troops were on patrol against anti-Italian demonstrators by the native population. On Dec. 18 huge crowds paraded with banners reading, "we do not want to suffer the fate of Ethiopia," "we wish to live under a regime of democratic liberties," "Djibouti is French land and it must remain French."

Haul Down Italian Flag

Last week natives caused the Italian flag to be hauled down from the building of Ala Littoria, the Italian air line.

(Fascist quarters in Rome ridiculed the report that Italian troops had violated the French Somaliland frontier, without actually denying it.)

General Maurice Gustave Gamelin, chief of the general staff of national defense, and Vice Admiral Jean Darlan, chief of the navy general staff, will go to Algeria and Morocco late in January to complete a military and naval inspection they began last November in Tunisia.

There were reports from Cairo of Italian troop movements in the Southern part of Libya, particularly near the Doufrah Uweinat Oasis, on the Libyan-Egyptian frontier. The area has been in dispute and diplomatic negotiations were expected shortly to result in awarding it either to Egypt or Italy.

Rotary clubs in Paris expected the Italian campaign against France to be steadily intensified and reach its climax during the Jan. 11-14 visit to Rome of British Prime Minister Chamberlain.

It was feared here that Mussolini would bring forth at that time his formal demands for French territory.

"No, sir," said the witness. "I didn't think it fell on me, in view of my other duties."

Austrian Refugee Asks Fortune for Aiding Co-refugee

New York, Dec. 27 (AP)—One Austrian refugee brought suit in Supreme Court today against another to collect \$255,000 for seven years' legal services and for having aided his co-refugee in escaping with two relatives and getting nearly \$2,000,000 out of Austria before Germany annexed it.

The defendant is Stefan Mendl of Hollywood, Calif., described as a wealthy Jew and former head of a \$5,000,000 baking company in Vienna.

The suit was filed in behalf of Markus Preminger, also a Jew and former judge and military district attorney for the Austro-Hungarian empire during the world war. It stated that Preminger remained in Vienna several weeks after the German-Austrian Anschluss "despite danger to his personal safety"

Seigle's life story reads like a Horatio-Alger tale of a successful man who started at the bottom of the ladder.

Abandoning a youthful idea that

he wanted to be a banker, Seigle started work for the old H. W. Johns Manufacturing Company. He spent five years handling practically every job in its old Brooklyn plant.

But his rise was rapid and within seven years he was one of the leaders of the asbestos and roofing concern, and was placed in charge of several manufacturing plants purchased by the parent company.

In 1917, Seigle became vice-president in charge of factories and mines, at the same time retaining the presidency of the subsidiary companies. In 1919 he became chairman of the board, the position he held until his death.

Seigle was also president and director of the Asbestos Wood Company and director of the Asbestos & Danville Railway in Quebec, Canada.

Among these occasions are those on which he can see a likelihood of the declarer discarding his losers of that suit on set-up cards of another suit.

### Some Impressive Thoughts about A Rural Community

JUDGE HAYMOND MAXWELL, president of the Supreme Court of Appeals of West Virginia, has just published a booklet entitled "The Story of Sycamore," which is of interest to the few hereabout who know the section of his state of which it relates, but which is also of interest to the many by reason of some observations made therein that apply to all sections of the country.

The story is a cross section of rural life at its best in a fine and prosperous section of the state—Sycamore creek, in Harrison county seven miles southwest of Clarksburg and just off Route 19 between that city and Weston.

Judge Maxwell shows by the story that he is thoroughly familiar with his subject, as he well might as he lived in Clarksburg prior to his election to the state supreme bench and was circuit judge of Harrison and Lewis counties, and judge of the Harrison criminal court; while he owns farms in the section where he has lived in summer times.

Near the concluding chapter of the book, Judge Maxwell gives a cross section picture of the Sycamore valley, which sums his story well.

"In the Sycamore valley's century and a half of organized society," it says, "there is found an impressive cross section of American life as typified by citizenship of the highest order.

"Perusal of the story of the development of the valley and a more intimate acquaintance through the printed pages with the men and women who have lived there, present with striking impressiveness the true meaning of American community life as it existed through the decades that have come and gone.

"In this section of the country as in many others like unto it, the people have done justly, loved mercy and walked humbly with God. On the whole dwellers in such communities have been happy and prosperous. Their rights have been respected by governmental authority, and they in return, have respected and upheld government. But never have they entertained the thought that they should be made the wards of paternalistic supervision. Such a set-up has been foreign to their contemplation.

"Unfortunate will be the day if, unhappily, it ever comes, when bureaucratic government, with its myriad tentacles reaching into every nook and corner of the nation shall undertake to dominate over the private lives and personal conduct of the people. In that day there will be crushed the spirit, the pride, the initiative, the hope and loyalty of a thousand Sycamore valleys. Those are the qualities which have made American citizenship preeminent in the earth. With their submergence under governmental regimentation, if and when it comes, there will be developed a new citizenship which will be characterized not by courage and self-reliance, but by dependence, plasticity and enervation. A new order sad to contemplate. But, after all, maybe the stalwart citizenship of today, backgrounded by the courage and faith and industry of three centuries of Americans, will see to it that the cherished fundamentals of American individual life shall remain unimpaired for the generations yet unborn."

A plea for the continuance of these fundamentals is voiced by Judge Maxwell as, in a summation of the book, he blames selfishness and "absence of regard for the welfare of others" for the pettiness of individuals and nations.

"Next after learning to be ladies and gentlemen and to live in the fear of God," he writes, "perhaps there is nothing more vital for American youth today than to learn the reasons why they should be deeply appreciative of American institutions as they have come down to us from our forebears . . .

"No liberty-loving American should ever permit any man or woman, whether curbside malcontent or parlor pink, to undertake to impress on him the thought that American constitutional law or the basic concepts of American institutions are out of date. That idea, sometimes asserted, is false and vicious. Those fundamentals of Americanism are as vital and fresh and down to the minute of this day of our Lord 1938 as in the day of their initial development on American soil. They represent eternal principles of right and justice. Such principles do not change nor fade with the passing of time. Let us guard our heritage with jealous care to the end that tyranny may never set its foot on American soil."

These are thoughts, typical of their author, which are worth the profound consideration of all Americans as a means of guidance and a source of inspiration, particularly that set forth in the concluding paragraph here given.

**Kind Word at Last**

THE AMERICAN MOTORIST has for long borne the brunt of so much taxation and complaint that it is only fair to say a good word for him, if and when the occasion offers itself. The motorist builds the highways and supports many government enterprises by steady and heavy taxes on all that goes into the use and the making of an automobile; he keeps going many major industries which give employment to millions of Americans; he pays and pays and pays, yet is one, if not the chief, of the objects of censure of the courts and civic commissions.

So, for a change, we are glad to note that someone has a kind word to say for the unhappy fellow. Maj. Roy F. Britton of St. Louis, chairman of the traffic commission of the American

Automobile Association, in an official report commands the American motorist for doing good work in cutting down the traffic death toll of the nation. Many causes contribute to the fatality reduction, but "motorists themselves did much to bring about the improvement," says Major Britton, who remarks that individual carefulness always has been, is today and must always be the basis of traffic safety.

The motorist is blamed for an increase in traffic deaths; it is but fair to credit him for the reduction.

### Around the Stump

MARRINER S. ECCLES, Federal Reserve Board chairman, typically presents the New Deal method of dodging the issue in the public letter written to Senator Harry F. Byrd, of Virginia, who has again sensibly called for a stop of the riotous extravagance going on in Washington.

Eccles declares that drastic curtailment of federal spending would reverse recovery trend and "jeopardize the salvation of our democracy." Then he intimates that Senator Byrd has little regard for our free institutions, the basic right to live and to work, and, further, the right to a decent place in which to live, security in old age and protection against unemployment.

All of which, of course, is quite beside the point. Senator Byrd does not disparage these things, and Eccles well should know it.

What is it that Senator Byrd asks? Not indeed, any reversal of recovery, but promotion of it; not, indeed, destruction of our democracy, but preservation of it. He seeks, simply, reorganization of the government to effect economies; a reduction to a minimum of activities new to the government; transfer of a part of the relief burden to local communities; a purge of the "undeserving" from relief rolls, and reduction of relief costs by stopping all expenditures "in excess of providing for those in need"; "reasonable taxation" as "one of the best assurances of business prosperity, and a balanced budget if we would escape disaster.

Certainly there is nothing to retard recovery nor to jeopardize human rights in all this. On the contrary, these things would promote those very things which Senator Byrd earnestly seeks, to which Eccles gives lip service but which his idea of limitless squander surely would resist as painful experience has already shown.

### Tumbledown Structures

THE DISFIGURING FEATURE in many back yards consists of little rickety and tumble-down chicken coops, woodsheds and other little buildings. Many places that look fairly well from the street have such down-and-out looking adjuncts on the rear of their lots. These eyesores are more visible than the owners realize, and they spoil the looks of homes that otherwise would be pleasing.

Judge Maxwell shows by the story that he is thoroughly familiar with his subject, as he well might as he lived in Clarksburg prior to his election to the state supreme bench and was circuit judge of Harrison and Lewis counties, and judge of the Harrison criminal court; while he owns farms in the section where he has lived in summer times.

Near the concluding chapter of the book, Judge Maxwell gives a cross section picture of the Sycamore valley, which sums his story well.

### Two and Two Make What?

SECRETARY WALLACE insists that although the tobacco and rice growers have turned down federal regulation of marketing—that is, in effect, crop restriction—and only the cotton growers have voted for it, the result proves that a "preponderant majority" of the farmers have shown themselves to be in favor of these policies of the administration.

Out of five referenda, four rejected the Wallace theories of control. In the Wallace conception, four defeats out of five constitute a victory. If Mr. Wallace were seated in the little red school house on the hill, we wonder just what he would find that two and two make?

Speaking of shirts, there are Black Shirts, Brown Shirts and Silver Shirts, each significant of fascism. But we still have a majority of stuffed shirts, it appears.

The world has always had two groups; one taking the hard way, striving, learning, improving, achieving; one trying the shorter way of taking by force.

Civilized men become so ethical they are above committing any crime except murder.

The motorist who has the right of way sometimes follows the path of wreckitude too far.

Another thing this country has too much of for its own good is human nature.

### The Pulse That Beats

By MARSHALL MASLIN

By MARSHALL MASLIN

Long ago, on a sunny morning, I lay in the grass in a garden and felt the sun warm me and make me sleepy with its rays. . . . The perfume of many flowers was about me and in all the air. I was young and I lay like a kitten, stretching and content. The day was young, too, and I gave no thought to foolish, self, if too naive, feeling that one monster has perished, anyway.

Yet now, as evidence that in

it sports the vaunted American education has failed to crack the crust of stupidity, there are Americans who listed agape and with unreasoning belief to oratory which would somehow have it that the Russian Revolution was offensive to the American belief and that they indicated as much at the time.

If there were any great and cunning outside conspirators on behalf of Communism, reckless of the consequences to religion, human dignity

the administration does or says.

As I lay, looking up, I heard a buzzing and saw a bit of flashing beauty and there, just before me, poised a humming bird before a lily. . . . There was something alive and beautiful. So my hand went forth, almost as if it did not belong to me, and my small fingers closed about that little bird. . . . Just as easy as that.

I felt him there in my small hand, that small rich living thing. He did not struggle. But his heart beat fast. His little black eyes stared wildly at me. The color of his breast seemed dim. . . . He was not so beautiful in my hand as he had been in the morning air. So, having watched him for a little while, I let him go and, swift as a stone from a small boy's hand, he fled my fearful presence.

And still, after these many years, I can feel the pulse of that small fellow.

I can feel the beat of him, the throbbing life of him. He was my first touch upon the fierce throng of life, my first knowledge of the pulse that beats through everything that lives on this earth.

Often since then I have felt a pulse in life. . . . I have seen it in the field. I have watched it in the years. I have seen it fall and rise and fall and rise in human beings, in individuals, in nations.

I have felt it in acquaintance, in friendship, in love. . . . I have known boredom and excitement, dullness and delight, wisdom and folly, courage and cowardice. . . . I have seen the pulse beating in the throng of life. I have heard its wild throb.

I have learned that our days have their systole and diastole, as all things have, and I have reminded myself many a time that though strength fails me, strength will return; and though I doubt, belief will come back to me. I know there is a pulse that beats and no one can take that from me.

So, for a change, we are glad to note that

someone has a kind word to say for the unhappy fellow. Maj. Roy F. Britton of St. Louis, chairman of the traffic commission of the American

### Fair Enough

BY WESTBROOK PEGLER

It is a hell of a commentary on American intelligence that any man can stand before the people so soon, historically speaking, after the Russian Revolution and convince any considerable portion of them that this upheaval was artificially engineered from the outside by a mysterious group of plotters in white wigs known as the "International bankers"—and that the Americans at the time regarded it as anything but a glorious occurrence. Lloyd George wrote that the worms which devoured Czarist Russia were bred of its own corruption and that it fell because every fiber of its power, influence and authority had rotted through and through.

"There was not enough strength left in its arm even to lift the scepter when its decrees were challenged by a hungry Petrograd mob," he wrote in one of volume of his apparently interminable, always informative and highly profitable memoirs. "The revolution was the inevitable consequence of Czarism and not its cause. Bolshevism had practically nothing to do with the events of March which ended in the abdication of the Czar. When the revolution started Lenin was a refugee in Switzerland. Trotsky was earning a precarious living as a writer in New York. The conspirators who overthrew Czarism were the Czarina and Rasputin, with the help of inept Ministers whom they promoted and favored."

Lloyd George Blames the Czar

Lloyd George says further, on the authority of one who cannot be denied great knowledge, that the Czar himself was the unconscious head of the conspiracy, who never would have been chosen by any responsible board of directors to manager any business of any magnitude.

Moreover, out of his great intimate information regarding affairs at that time, he adds that the "merciful disposition" which has been attributed to the Czar since his death was ill-expressed in his dealings with some of the worthiest of his subjects. Although the horror of the Czar's fate has been permitted to temper criticism, the old Welsh manshaker says, criticism cannot remain silent if provoked by truculent challenge."

Lloyd George also quotes from Princess Radziwill's book her belief that the hatred of Rasputin, openly expressed in the best society of St. Petersburg and Moscow, was only a blind for a campaign to overthrow the Czar himself.

"The more serious aim," she wrote, "was cherished by a considerable number of those sick of the graft, corruption and complete disorder and disgusted with the shallow, false and unreliable character of Nicholas II and the cold-blooded cruelty with which he was trying to suppress every aspiration toward freedom. The torrents of blood shed since he ascended the throne had alienated all respect and affection, and his subjects had come to look upon him as an impediment to the development and prosperity of Russia."

### Looking Back in the Files

Not only that, but as reference to the files of the American papers of that period will prove to anyone who is willing to roll his own conclusions and reject adulterated package goods offered under religious labels by mass poisoners of human relations and historical truth, the American response to the revolution was acclaim, not repugnance. Even though this country stood to lose an ally in the impending American struggle the Germans, American traditions and the sympathies born of those traditions were such that the people of the United States smiled through their tears or wept through their cheers with the honest, if too naive, feeling that one monster has perished, anyway.

If this is to be Democratic policy in the new Congress, the country has much to be thankful for. It would be well, however, for these gentlemen to let Governor Eccles for quite recently, the Federal Reserve Board head, who is close to the White House, defend the deficit financing policy of the administration. Indeed, he declared the budget must remain around nine billion dollars a year, and said we couldn't hope to balance it until national income got up to 85 or 90 billions.

Obviously, if there is to be a change of fiscal policy, it will be in spite of, not because of any thing the administration does or says.

For example, the government long ago took over the function of carrying mail. It could do this and stop.

But consider another collectivist practice, one adopted by the New Deal. The administration began to regulate farming. It fixed the number of acres of cotton a farmer could raise. Consider what followed.

Here were certain idle acres, taken out of cotton. Farmers owning these idle acres looked about for something to plant on them. They planted peanuts. Thereupon there were too many peanuts. Thereupon peanut raisers complained. Thereupon Secretary Wallace said, and was obliged to say, "We must regulate."

This brings us to the job for leaders of thought. It is one of drawing a careful line through the whole body of New Deal innovations.

In the New Deal are some practices which, while collectivist in principle, stand alone. These we can adopt if we choose, and stop. (Many other New Deal practices are completely individualist in principle and need not be considered here).

But in the New Deal are other practices which are collectivist in principle and have the automatic, self-expanding quality that I have described—practices which, unless we go over to a collectivist system completely.

That sentence is true. But readers have misunderstood it to mean something like this—that no practice which belongs with a collectivist society can be made to work unless we go over to a collectivist system completely.

That would not be true. There are certain collectivist practices which we can adopt and stop. But there are other collectivist practices which we cannot adopt without going further and further until we go into a collectivist system completely. To see the distinction between the two is an imperative need at this time.

For example, the government long ago took over the function of carrying mail. It could do this and stop.

But consider another collectivist practice, one adopted by the New Deal. The administration began to regulate farming. It fixed the number of acres of cotton a farmer could raise. Consider what followed.

Here were certain idle acres, taken out of cotton. Farmers owning these idle acres looked about for something to plant on them. They planted peanuts. Thereupon there were too many peanuts. Thereupon peanut raisers complained. Thereupon Secretary Wallace said, and was obliged to say, "We must regulate."

Now there was still more idle acres. There were the idle acres that formerly bore cotton and the idle acres that formerly bore peanuts.

Thereupon farmers owning both the idle acreages looked about for something to plant on them. They planted peanuts.

Now there were too many peanuts. Farmers who had always been peanut raisers complained.

Thereupon the administration said, and was obliged to say, "We must fix the number of acres that can be planted in peanuts, and otherwise regulate the raising and sale of peanuts."

And so it went. One step led to another. Not merely led to another but compelled another. By the time the supreme court held the original farm regulation law, AAA, unconstitutional, the administration was regulating some sixteen crops. It was an automatic process which, unless wholly discarded, had to go on and on until all farming was put on the collectivist basis.

Inte Industry Also

And it could not even have stopped with farming. It would have gone on automatically into industry. For once you limit the quantity of a commodity that can be grown, cotton for example, you will presently be faced by the necessity of allocating the distribution of it to the manufacturers who want it.

Consider another aspect of farm

"Perusal of the story of the development of the valley and a more intimate acquaintance through the printed pages with the men and women who have lived there, present with striking impressiveness the true meaning of American community life as it existed through the decades that have come and gone.

"In this section of the country as in many others like unto it, the people have done justly, loved mercy and walked humbly with God. On the whole dwellers in such communities have been happy and prosperous. Their rights have been respected by governmental authority, and they in return, have respected and upheld government. But never have they entertained the thought that they should be made the wards of paternalistic supervision. Such a set-up has been foreign to their contemplation.

"Unfortunate will be the day if, unhappily, it ever comes, when bureaucratic government, with its myriad tentacles reaching into every nook and corner of the nation shall undertake to domineer over the private lives and personal conduct of the people. In that day there will be crushed the spirit, the pride, the initiative, the hope and loyalty of a thousand Sycamore valleys. Those are the qualities which have made American citizenship preeminent in the earth. With their submergence under governmental regimentation, if and when it comes, there will be developed a new citizenship which will be characterized not by courage and self-reliance, but by dependence, plasticity and enervation. A new order sad to contemplate. But, after all, maybe the stalwart citizenship of today, backgrounded by the courage and faith and industry of three centuries of Americans, will see to it that the cherished fundamentals of American individual life shall remain unimpaired for the generations yet unborn."

A plea for the continuance of these fundamentals is voiced by Judge Maxwell as, in a summation of the book, he blames selfishness and "absence of regard for the welfare of others" for the pettiness of individuals and nations.

"Next after learning to be ladies and gentlemen and to live in the fear of God," he writes, "perhaps there is nothing more vital for American youth today than to learn the reasons why they should be deeply appreciative of American institutions as they have come down to us from our forebears . . .

"No liberty-loving American should ever permit any man or woman, whether carbuncle malcontent or parlor pink, to undertake to impress on him the thought that American constitutional law or the basic concepts of American institutions are out of date. That idea, sometimes asserted, is false and vicious. Those fundamentals of Americanism are as vital and fresh and down to the minute of this day of our Lord 1938 as in the day of their initial development on American soil. They represent eternal principles of right and justice. Such principles do not change nor fade with the passing of time. Let us guard our heritage with jealous care to the end that tyranny may never set its foot on American soil."

These are thoughts, typical of their author, which are worth the profound consideration of all Americans as a means of guidance and a source of inspiration, particularly that set forth in the concluding paragraph here given.

### Kind Word at Last

THE AMERICAN MOTORIST has for long borne the brunt of so much taxation and complaint that it is only fair to say a good word for him, if and when the occasion offers itself. The motorist builds the highways and supports many government enterprises by steady and heavy taxes on all that goes into the use and the making of an automobile; he keeps going many major industries which give employment to millions of Americans; he pays and pays and pays, yet is one, if not the chief, of the objects of censure of the courts and civic commissions.

So, for a change, we are glad to note that someone has a kind word to say for the unhappy fellow. Maj. Roy F. Britton of St. Louis, chairman of the traffic commission of the American

Automobile Association, in an official report commends the American motorist for doing good work in cutting down the traffic death toll of the nation. Many causes contribute to the fatality reduction, but "motorists themselves did much to bring about the improvement," says Major Britton, who remarks that individual carelessness always has been, is today and must always be the basis of traffic safety.

The motorist is blamed for an increase in traffic deaths; it is but fair to credit him for the reduction.

### Around the Stump

MARRINER S. ECCLES, Federal Reserve Board chairman, typically presents the New Deal method of dodging the issue in the public letter written to Senator Harry F. Byrd, of Virginia, who has again sensibly called for a stop of the riotous extravagance going on in Washington.

Eccles declares that drastic curtailment of federal spending would reverse recovery trend and "jeopardize the salvation of our democracy." Then he intimates that Senator Byrd has little regard for our free institutions, the basic right to live and to work, and, further, the right to a decent place in which to live, security in old age and protection against unemployment.

All of which, of course, is quite beside the point. Senator Byrd does not disparage these things, and Eccles well should know it.

What is it that Senator Byrd asks? Not indeed, any reversal of recovery, but promotion of it; not, indeed, destruction of our democracy, but preservation of it. He seeks, simply, reorganization of the government to effect economies; a reduction to a minimum of activities new to the government; transfer of a part of the relief burden to local communities; a purge of the "undeserving" from relief rolls, and reduction of relief costs by stopping all expenditures "in excess of providing for those in need"; "reasonable taxation" as "one of the best assurances of business prosperity, and a balanced budget if we would escape disaster.

Certainly there is nothing to retard recovery nor to jeopardize human rights in all this. On the contrary, these things would promote those very things which Senator Byrd earnestly seeks, to which Eccles gives lip service but which his idea of limitless squander surely would resist, as painful experience has already shown.

### Tumbledown Structures

THE DISFIGURING FEATURE in many back yards consists of little rickety and tumble-down chicken coops, woodsheds and other little buildings. Many places that look fairly well from the street have such down-and-out looking adjuncts on the rear of their lots. These eyesores are more visible than the owners realize, and they spoil the looks of homes that otherwise would be pleasing.

A careful family will not tolerate such ugliness. If any outlying building is capable of looking well, they have it repaired and painted, until it seems a worthy part of the home. If it is too rickety to look well, they remove it. Every foot of their lots is given some definite use, and made attractive. Even if they keep chickens or carry on other work in their back yards, it is neatly and attractively done. Such places deserve a kind of community medal of honor.

### Two and Two Make What?

SECRETARY WALLACE insists that although the tobacco and rice growers have turned down federal regulation of marketing—that is, in effect, crop restriction—and only the cotton growers have voted for it, the result proves that a "preponderant majority" of the farmers have shown themselves to be in favor of these policies of the administration.

Out of five referenda, four rejected the Wallace theories of control. In the Wallace conception, four defeats out of five constitute a victory. If Mr. Wallace were seated in the little red school house on the hill, we wonder just what he would find that two and two make?

Speaking of shirts, there are Black Shirts, Brown Shirts and Silver Shirts, each significant of fascism. But we still have a majority of stuffed shirts, it appears.

The world has always had two groups; one taking the hard way, striving, learning, improving, achieving; one trying the shorter way of taking by force.

Civilized men become so ethical they are above committing any crime except murder.

The motorist who has the right of way sometimes follows the path of wreckitude too far.

Another thing this country has too much of for its own good is human nature.

### The Pulse That Beats

By MARSHALL MASLIN

By MARSHALL MASLIN

Long ago, on a sunny morning, I lay in the grass in a garden and felt the sun warm me and make me sleepy with its rays. . . . The perfume of many flowers was about me and in all the air. I was young and I lay like a kitten, stretching and content. The day was young, too, and I gave no thought to foolish, solemnit matters.

As I lay, looking up, I heard a buzzing and saw a bit of flashing beauty and there, just before me, poised a humming bird before a lily. . . . There was something alive and beautiful. So my hand went forth, almost as if it did not belong to me, and my small fingers closed about that little bird. . . . Just as easy as that.

I felt him there in my small hand, that small rich living thing. He did not struggle. But his heart beat fast. His little black eyes stared wildly at me. The color of his breast seemed dim. . . . He was not so beautiful in my hand as he had been in the morning air. So, having watched him for a little while, I let him go, and swift as a stone from a small boy's hand, he fled my fearful presence.

And still, after these many years, I can feel the pulse of that small fellow.

I can feel the beat of him, the throbbing life of him. He was my first touch upon the fierce throb of life, my first knowledge of the pulse that beats through everything that lives on this earth.

Often since then I have felt a pulse in life. . . . I have seen it in the field. I have watched it in the years, I have seen it fall and rise and fall and rise in human beings, in individuals, in nations.

I have felt it in acquaintance, in friendship, in love. . . . I have known boredom and excitement, dullness and delight, wisdom and folly, courage and cowardice. . . . I have seen the pulse beating in the throat of life. I have heard its wild throb.

I have learned that our days have their systole and diastole, as all things have, and I have reminded myself many a time that though strength fails me, strength will return; and though I doubt, belief will come back to me. I know there is a pulse that beats and no one can take that from me.

### Fair Enough

BY WESTBROOK PEGLER

It is a hell of a commentary on American intelligence that any man can stand before the people so soon, historically speaking, after the Russian Revolution and convince any considerable portion of them that this upheaval was artificially engineered from the outside by a mysterious group of plotters in white wigs known as the "International bankers" and that the Americans at the time regarded it as anything but a glorious occurrence. Lloyd George wrote that the worms which devoured Czarist Russia were bred of its own corruption and that it fell because every fiber of its power, influence and authority had rotted through and through.

"There was not enough strength left in its arm even to lift the scepter when its decrees were challenged by a hungry Petrograd mob," he wrote in one volume of his apparently interminable, always informative and highly profitable memoirs. "The revolution was the inevitable consequence of Czarism and not its cause. Bolshevism had practically nothing to do with the events of March which ended in the abdication of the Czar. When the revolution started Lenin was a refugee in Switzerland. Trotsky was earning a precarious living as a writer in New York. The conspirators who overthrew Czarism were the Czarina and Rasputin, with the help of inept Ministers whom they promoted and favored."

### Lloyd George Blames the Czar

Lloyd George says further, on the authority of one who cannot be denied great knowledge, that the Czar himself was the unconscious head of the conspiracy, who never would have been chosen by any responsible board of directors to manage any business of any magnitude.

Moreover, out of his great intimate information regarding affairs at that time, he adds that the "merciful disposition" which has been attributed to the Czar since his death was ill-expressed in his dealings with some of the worst of his subjects. Although the horror of the Czar's fate has been permitted to temper criticism, the old Welsh manshaker says, criticism cannot remain silent if "provoked by truculent challenge."

Lloyd George also quotes from Princess Radzwill's book her belief that the hatred of Rasputin, openly expressed in the best society of St. Petersburg and Moscow, was only a blind for a campaign to overthrow the Czar himself.

"The more serious aim," she wrote, "was ushered in by a considerable number of those sick of the graft, corruption and complete disorder and disgusted with the shallow, false and unreliable character of Nicholas II and the cold-blooded cruelty with which he was trying to suppress every aspiration toward freedom. The torrents of blood shed since he ascended the throne had alienated all respect and affection, and his subjects had come to look upon him as an impediment to the development and prosperity of Russia."

### Looking Back in the Files

Not only that, but as reference to the files of the American papers of that period will prove to anyone who is willing to roll his own conclusions and reject adulterated package goods offered under religious labels by mass poisoners of human relations and historical truth, the American response to the revolution was acclaim, not repugnance.

Even though this country stood to lose an ally in the impending American struggle the Germans, American traditions and the sympathies born of those traditions were such that the people of the United States smiled through their tears or wept through their cheers with the honest if too naive, feeling that one monster has perished, anyway.

Yet now, as evidence that in sports the vaunted American education has failed to crack the crust of stupidity, there are Americans who listed agape and with unreasoning belief to oratory which would somehow have it that the Russian Revolution was offensive to the American belief and that they indicated as much at the time.

If this is to be Democratic policy in the new Congress, the country has much to be thankful for. It would be well, however, for these gentlemen to let Governor Eccles in on their plans. For quite recently, the Federal Reserve Board head, who is close to the White House, defended the deficit financing policy of the administration. Indeed, he declared the budget must remain around nine billion dollars a year and said we couldn't hope to balance it until national income got up to \$5 or \$6 billions.

Obviously, if there is to be a change of fiscal policy, it will be in spite of, not because of any thing the administration does or says.

### The Human Side Of the News

BY EDWIN C. HILL

The great physician who put stars in our blood is adventuring to the jungles of Guatemala to discover what makes the sloth so slothful. What mysterious operation of the still mysterious glands makes for excessive laziness or excessive energy. The study of glands and their enormous influence on human health and behavior has occupied Dr. George W. Crile, eminent surgeon of Cleveland, for many years.

When scientists get together there is very apt to be talk about glands and plenty of it—shop talk about those mysterious organs which secrete substances which hold the key to most of the mysteries of life and death. And when glands are mentioned, Dr. Crile and his research work, in laboratory and in jungle, are always mentioned. He has spent forty years searching for the life source, dissecting all creatures from cockroach to elephant.

### Lion Gave Clue

He tells the fascinating story of how, while hunting lions in Africa, he stumbled upon a means of treating epilepsy, high blood pressure, diabetes, stomach-ulcers and nervous debility. He was attracted by the manner in which a lion could spring from absolute immobility into lightning swift action. He asked himself why humans could not do the same thing, and set about finding out. He dissected a lion and found that the king of beasts possessed a huge "adrenal sympathetic system." That is, the lion has a complexity of nerves and ganglia associated with the adrenal glands, those two small organs near the kidneys.

In the Cleveland Clinic, the history of these fascinating researches made by George Crile are preserved in long rows of jars or wax models. Roughly speaking—as a layman must—his researches have shown that the controlling agents in nervous energy are the brain, liver and thyroid gland and the nervous system.

The ancients, as far back as the great Hippocrates, had the idea that there were forces in the body apart from the brain which reacted to human emotions. They believed that anger originated in the stomach, and it remained for modern endocrinologists to discover the reaction of the adrenal glands to fright, stress and anger. At such time it is the oversecretion from these glands that really makes one "sick with fright" or "sick with

# DEATH AT THE MANOR

BY M. E. CORNE

## READ THIS FIRST:

Eliza Ritter, a beauty shop operator, taking the place of her friend, Kitty, for a week in the private salon of Mrs. Horace Witherspoon, was disturbed by queer things she finds and old people she meets at the Manor, the luxurious Witherspoon home. She finds most of the old people there are men with sadly misplaced vanity. She meets her granddaughter, Daphne; her daughter-in-law, Della Craig; an actress, who is a favorite with the various servants of the household. Eliza overhears a violent argument between Daphne and her mother, during which the old woman tries to drown her. After meeting some of the other house guests, Eliza gives a manicure to old Mrs. Witherspoon's sister, who converses in verse. **NOW GO ON WITH THE STORY!**

## CHAPTER NINE

AT FIVE O'CLOCK I closed the saloon. Mrs. Horace had not returned for her appointment, but I did not feel that it was my place to remind her of it. Doubtless her maid would groom her for the evening's affair. I therefore was free until eight.

The intervening time I occupied with food and bathing. This night I felt no shame at loiling in the hot, scented waters of the sunken tub. I was entitled to some sort of compensation after what I had been through. Finishing my bath, I donned a fresh uniform and debated the desirability of dining above or below stairs.

After debate, I went below for my dinner. Dinner was served in the housekeeper's dining room, a step above the general servants' dining room. Mrs. Greely was with me. The others whose rank entitled them to places at this superior board, I was informed, had dined earlier so that they might perform the hundred and one tasks required of them before the opening of the ball.

Chickens a la Newburg, tomato aspic and black coffee considerably brightened my outlook, and it was with a decided uplifted morale that I returned to the salon.

Promptly at eight Eliza wheeled Mrs. Witherspoon through the connecting door. The head of the Witherspoon family was brilliantly arrayed in a red and green kimono with huge flowing sleeves and a great red pompon at the throat. On her lap she held a black lacquered box which she opened and extended for my inspection. The box was filled with jewels. These, however, seemed to give the old lady no pleasure whatsoever. She frowned repeatedly as she held first one and then another aloft.

"Baubles!" she sniffed. "Baubles!" She dangled an emerald pendant carelessly from one finger. "Come, Miss Ritter! What shall I wear tonight?"

"The pendant is beautiful!" I exclaimed, unable to take my eyes from the green, glittering thing. "Well!" she lifted it to the light. "Well, perhaps it will do with the earrings and bracelet to match. My gown," she added importantly, "is of gold. I ordered it directly from New York."

"Really?"

"Didn't I say so? Eliza, leave the emeralds and look the rest of this trash in the wall safe!"

"Leave the emeralds—here?"

"Do as you are bid!" snapped her mistress. "Go along and eat your dinner."

For a moment I thought Eliza would refuse to obey this command. She lingered uncertainly, her eyes never leaving my face. She did not trust me a little bit! That much was certain. She left, and I was alone with Mrs. Witherspoon.

"Till have the shampoo first," Mrs. Witherspoon said when Eliza had gone. "After you set the wave, you can do my face and the mask will harden while I'm under the drier. And then you can start on my nails."

"You want the mask?" I was dismayed and must have showed it. Fooling around with beauty packs is such a messy business.

"The mask, certainly," she said

"Come, Miss Ritter! What shall I wear tonight?"

curtly. "Hurry, please, we have a lot to do."

A lot to do! I almost laughed in her face. Where did she get that "we" stuff, anyway?

"Well!" she said, and I shook my head. I almost laughed in her face. Where did she get that "we" stuff, anyway?

## Theatres Today

## 'Sweethearts' Will Open At the Maryland Tomorrow

Three anniversaries were celebrated when "Sweethearts," fifth co-starring musical for Jeanette MacDonald and Nelson Eddy, entered production.

It was Miss MacDonald's birthday and also the first anniversary of her marriage to Gene Raymond. Recording of the Victor Herbert melodies began on the third anniversary of her teaming with Eddy in their first great hit, "Naughty Marietta," also from the Herbert pen.

"Sweethearts," furthermore, represents the first reunion of the "five-man team" responsible for the success of "Naughty Marietta": MacDonald and Eddy as co-stars, Frank Morgan heading the supporting cast, W. S. Van Dyke II directing and Hunt Stromberg bringing the picture to the screen.

Eleven days after the cameras turned Nelson Eddy also celebrated his birthday anniversary on the set, so two parties launched the picture.

Curiously enough, the New York premiere of the Herbert operetta, September 8, 1913, had a MacDonald in the starring role. She was Christie MacDonald, no relation. The male lead was Thomas Conkey as the Prince and the comedian was Lionel Walsh, whose film successor is dancer Ray Bolger. The first tryout production of the stage piece was at the Academy of Music in Baltimore, March 24, 1913. The libretto was written by Harry B. Smith and Fred de Gresac, the latter a pen name for Mme. Victor Maurel.

In addition to presenting its stars in a modern story, with the operetta the show within the show, "Sweethearts" also reveals them for the first time together in Technicolor, the first of six color features to be produced at Metro-Goldwyn-Mayer this season.

## Tommy Kelly As "Peck's Bad Boy"

Tommy Kelly, the tousle-haired, freckle-faced lad who won the coveted role of Tom Sawyer in a competition which included 50,000 youngsters, makes his second screen appearance in another characterization of a famous youth in America's fiction lore — Peck's Bad Boy, the mischievous boy immortalized by George W. Peck in his series of articles and novels of that name.

"Peck's Bad Boy With the Circus" starting today at the Liberty is the modern picturization of the innocent activities of Bill Peck which always evolve into misadventures. Bill is enroute to a summer camp when he is mulcted of his railroad fare. He is forced to hitchhike with a traveling circus and becomes implicated in a riotous series of delightful pranks.

Romance is served by Tommy in an adolescent "crush" on ten-year-old Ann Gillis, who is seen as Becky Thatcher in "The Adventures of Tom Sawyer." Edgar Kennedy is also featured in "Peck's Bad Boy With the Circus," an RKO Radio Picture.

## Hepburn and Grant Star in New Film

Katharine Hepburn, co-starred with Cary Grant, comes to the Garden Theatre today in "Holiday," Columbia screen version of the Philip Barry stage success. George Cukor directed the film, from a screen adaptation by Donald Ogden Stewart and Sidney Buchman. In the cast supporting the stars are Edward Everett Horton, Binnie Barnes, Doris Nolan, Lew Ayres, Jean Dixon and Henry Kolker.

"Holiday" is the story of a young debutante, stifled by wealth and family position, confused by the crowded and meaningless activity of a socialite's life, who falls in love with a young man with a sense of humor and a sense of proportion.

"Tom Sawyer, Detective" relates the adventures of "Tom" and "Huck" when they travel from Missouri to Arkansas, on a vacation, and run smack up against a mur-

Tommy Kelly and Ann Gillis, who scored in the leading roles of "Tom Sawyer," are reunited for the top parts in "Peck's Bad Boy with the Circus," starting today at the Liberty, RKO Radio's initial production in a series capitalizing George W. Peck's fiction favorite. Edgar Kennedy has a featured role as a lion tamer, and Benita Hume, Spanky MacFarland and Louise Beaver are also cast.

has no desire to abandon them for love.

Lew Ayres is the inebriate younger brother of Miss Hepburn and Miss Nolan, boy who finds alcohol a pleasant substitute for the pleasure life should have given him but didn't. Henry Kolker is the complacent father.

Also on the Garden program is "Secrets of an Actress," starring Kay Francis.

## 'Tom Sawyer, Detective,' Tells Great Twain Story

A story guaranteed to charm every adult and thrill the heart of every kid is told in "Tom Sawyer, Detective," Paramount's screen version of Mark Twain's great novel, which shows tomorrow and Friday at the Strand Theatre. With two of Hollywood's foremost boy stars, Billy Cook and Donald O'Connor, bringing "Tom Sawyer" and his pal "Huckleberry Finn" to vivid life, this is the outstanding youth picture of the season.

## Artists and Models Abroad Will Close Today

Jack Benny and Joan Bennett are seen for the last times today at the Strand in the lavish musical laugh fest entitled "Artists and Models Abroad." It is an excellent Paramount Picture that merits the large audiences it has attracted. The short subjects alone are worth the admission. "Ferdinand the Bull" Walt Disney's color cartoon is a positive scream; the Sportlight showing the trained frogs and "Skating" filmed in color are all highly entertaining.

## Farrell Is Ace in "Flight To Fame"

"Flight to Fame," Columbia's thrilling romantic aviation drama featuring Charles Farrell and Jacqueline Wells, opens today at the Embassy Theatre. Reportedly one of the most exciting and dramatic films in many months, "Flight to Fame" presents Farrell as a daredevil army pilot.

The plot revolves around the invention of a mysterious "death ray" gun which turns flying planes into flaming ruins.

The world's most unique weapon figures prominently in "Flight to Fame." It is a "death ray" gun, patterned after designs on which several scientists are now at work. The gun "fires" an electronic beam and this beam affects metal much like a blow torch.

Jason Robards, Frederick Burton, Alexander D'Arcy, Addison Richards, Chas. D. Brown, Hugh Sothern and Ed Stanley head the supporting cast of "Flight to Fame." C. C. Coleman, Jr. directed, from an original screen play by Michael L. Simmons.

Instead of an autograph book, Judy Garland has started an autograph automobile in Hollywood.

The Metro-Goldwyn-Mayer singing siren arrived at the studio during the making of "Listen, Darling," now at the Embassy Theatre, driving an old cut-down car which she persuaded her mother to buy strictly for autograph purposes.

After obtaining the signatures of Freddie Bartholomew, Mary Astor, Walter Pidgeon and Director Edwin L. Marin on the set of "Listen, Darling," Judy parked the machine outside the sound stage, with a sign reading, "Please autograph my car." Judy Garland. Jeanette MacDonald, Nelson Eddy, Spencer Tracy, Myrna Loy, Janet Gaynor and Robert Young were among those to oblige.

"Listen, Darling," is a rollicking comedy based on Katherine Bush's magazine story of the same name.

## Children Score Hit In Fairy Tale Show

A series of typically Mark Twain situations, all of which are bound to delight the fans of the great writer, follow. Among them are a meeting with two Mississippi River steamboat shippers, a struggle to arouse a young lawyer who would rather fish than go to work, the discovery of a twin of the murdered man and a harrowing search for clues in a "haunted" graveyard at midnight. The affair is capped by an exciting murder trial, in the middle of which "Tom" and "Huck" amaze the community with their revelations.

The story includes a tender, down-to-earth romance between "Tom's" Cousin Ruth" and the young lawyer, promoted of course by John Moyer, proved a decided success yesterday at the Maryland Theatre. The old fairy tale of the little girl's adventures in a land of make-believe was enacted in songs, dances and pageantry.

Members of the cast were: Big Alice, Jean Lowery; Little Alice, Shirley Burke; Little Rabbit, Colleen Burke; Big Rabbit, Beverly Millway; Mad Hatter, Robert Doty; Dormouse, Louella Jean Heineman; Caterpillar, Gephart School children; Humpty Dumpty, Ruth Lee Richards; Gryphon, Dorothy Robinson; Mock Turtle, Judy Kline; Tweedle Dum, Nellie Mae Manning; Tweedle Dee, Joan Tolson; Cook, Helen McDuffy; Trumpeter, Margaret Shanholz; Grand Duchess, Jane McMullen; Jester, Connie Cook; King, Hugh Hopwood; Queen, Jack Elaine Price; Cheshire Cat, Mary Faye Keiser; Body Guards, Martha Langer and Betty Arm-

## 'Sweethearts' Will Open At the Maryland Tomorrow

Three anniversaries were celebrated when "Sweethearts", fifth co-starring musical for Jeanette MacDonald and Nelson Eddy, entered.

It was Miss MacDonald's birthday and also the first anniversary of her marriage to Gene Raymond. Recording of the Victor Herbert melodies began on the third anniversary of their teaming with Eddy in their first great hit, "Naughty Marietta," also from the Herbert pen.

"Sweethearts," furthermore, represents the first reunion of the "five-man team" responsible for the success of "Naughty Marietta": MacDonald and Eddy as co-stars, Frank Morgan heading the supporting cast, W. S. Van Dyke II directing and Hunt Stromberg bringing the picture to the screen.

Eleven days after the cameras turned Nelson Eddy also celebrated his birthday anniversary on the set, so two parties launched the picture.

Curiously enough, the New York premiere of the Herbert operetta, September 8, 1913, had a MacDonald in the starring role. She was Christie MacDonald, no relation. The male lead was Thomas Conkey as the Prince and the comedian was Lionel Walsh, whose film successor is dancer Ray Bolger. The first tryout production of the stage piece was at the Academy of Music in Baltimore, March 24, 1913. The libretto was written by Harry B. Smith and Fred de Gresac, the latter a pen name for Mme. Victor Maurel.

In addition to presenting its stars in a modern story, with the operetta the show within the show, "Sweethearts" also reveals them for the first time together in Technicolor, the first of six color features to be produced at Metro-Goldwyn-Mayer this season.

## Hepburn and Grant Star in New Film

Katharine Hepburn, co-starred with Cary Grant, comes to the Garden Theatre today in "Holiday", Columbia screen version of the Philip Barry stage success. George Cukor directed the film, from a screen adaptation by Donald Ogden Stewart and Sidney Buchman. In the cast supporting the stars are Edward Everett Horton, Blanche Barnes, Doris Nolan, Lew Ayres, Jean Dixon and Henry Kolker.

"Holiday" is the story of a young debutante, stifled by wealth and family position, confused by the crowded and meaningless activity of a socialite's life, who falls in love with a young man with a sense of humor and a sense of proportion. He thinks there is more to life than the accumulating of money for the sake of accumulating money, and he intends to continue his career no longer than he has to. He wants to retire while he is young and can still enjoy life.

Miss Nolan is seen as another member of the wealthy Seton family. Her gods are family position and a fat bank account, and she

## Tom Sawyer, Detective, Tells Great Twain Story

A story guaranteed to charm every adult and thrill the heart of every kid is told in "Tom Sawyer, Detective". Paramount's screen version of Mark Twain's great novel, which shows tomorrow and Friday at the Strand Theatre. With two of Hollywood's foremost boy stars, Billy Cook and Donald O'Connor, bringing "Tom Sawyer" and his pal "Huckleberry Finn" to vivid life, this is the outstanding youth picture of the season.

"Tom Sawyer, Detective" relates the adventures of "Tom" and "Huck" when they travel from Missouri to Arkansas, on a vacation, and run smack up against a mur-

der mystery involving Tom's "Uncle Silas." Realizing that they are the only people who can go to work on the case without arousing suspicion, the boys set out to solve the mystery and clear "Tom's" relatives.

A series of typically Mark Twain situations, all of which are bound to delight the fans of the great writer, follow. Among them are a meeting with two Mississippi River steamboat shippers, a struggle to arouse a young lawyer who would rather fish than go to work, the discovery of a twin of the murdered man and a harrowing search for clues in a "haunted" graveyard at midnight. The affair is capped by an exciting murder trial, in the middle of which "Tom" and "Huck" amaze the community with their revelations.

The story includes a tender, down-to-earth romance between "Tom's" Cousin Ruth" and the young lawyer, promoted of course by the two boys. The couple is played by Janet Waldo and Phillip Warren, both of whom show great promise as romantic stars.

"Ferdinand the Bull" the very funny color cartoon will be held over and an added program of new shorts will add to the gaiety of the program.

Newton, Mass., Dec. 27 (AP)—Hugh Mulcahy, of the Philadelphia Phillies, is writing a book that probably would be a "best seller" among National Leaguers—but it never will go on public sale.

The young pitcher said today it might be titled "My Experience Against Certain Batters."

"I'm writing everything under the man's name," he explained. "You go over these past experiences with the batters so often that you know just what they like, where they hit and so forth. It helps."

There's a little psychology to this writing business, too. For atop each page, Hugh has written: "Don't walk him."

Wildness has been one of the 25-year-old moundsman's big handicaps.

## Leading Industrials Sell Off With Only Few Issues Contesting Trend

Rails, Aircrafts and Specialties Only Strong Shares

New York, Dec. 27 (P) — The Christmas spirit seemed out of the stock market today as traders returning from their lengthy recess, slumped down leading industrials fractions to more than a point.

A few rails, aircrafts and specialties managed to contest the trend for small advances, but industries generally put up only mild resistance.

The Associated Press average of 60 stocks was off 3 of a point at 514. Transfers amounted to 1,236,280 shares compared with 1,216,637 last Friday.

Prominent losers were General Motors, Chrysler, U. S. Rubber, Montgomery Ward, Consolidated Edison, Anaconda, J. C. Penny, U. S. Gypsum, Gruend Corp, Texas Corp., American Can and Santa Fe.

Boeing and Bendix retained small gains and the majority of aviations were up the greater part of the session, apparently reviving on reports the president would ask congress for a combined army navy air fleet of 13,000 planes.

Up fractionally on an uneven curb market were Lockheed, Northern States Power "A," Consolidated Copper and Lake Shore. Electric Bond & Share fell back a major fraction and Gulf Oil and American Gas & Electric lost about as much. Volume of 350,000 shares was the

Branches were blown off trees and strewn along some of the streets here. A window at the restaurant on First street was also blown out. High winds were reported in the Thomas and Davis section.

Charleston, W. Va., Dec. 27 (AP)—A biting cold wave rode the ta: of high winds into West Virginia today, sending temperatures below freezing in many sections and bringing occasional snow flurries.

At Charleston, the thermometer dropped off eight points between 8 a. m. and mid-afternoon to a low of 31 and kept on going down. Reports from other parts of the state indicated similar weather was being experienced.

Meanwhile, power linemen and telephone repair crews had their hands full restoring service which was disrupted by the high winds of last night.

The little town of Ellamore, in central West Virginia, turned its electric lights back on after a night of darkness. The wind damaged the Lumber company power plant there.

Between Belington, Elkins, Parsons and Thomas telephone linemen managed to restore service which had been interrupted by the storm, and crews were busy around Morgantown erecting poles which had been blown down.

Streets in virtually every city were littered with small branches as a result of the wind, although there was no major damage reported.

### Phone Service Is Resumed in Parsons Area

Communications Disrupted Several Hours as Result of Storm

Parsons, W. Va., Dec. 27—Telephone service out of this city was put back into service this evening after being disrupted by high winds last night. The only way to get a long distance call out of Parsons last night was to use the government telephone lines. There is very little snow here but a high wind caused damage throughout the county. A sign board was blown down at Bretz, near here, and part of it lodged on the home of Dick Spangler, causing damage to the residence. Branches were blown off trees and strewn along some of the streets here. A window at the restaurant on First street was also blown out. High winds were reported in the Thomas and Davis section.

### West Virginia Is Visited by Winter Weather

Below Freezing in Many Sections and Still Falling

Charleston, W. Va., Dec. 27 (AP)—A biting cold wave rode the tail of high winds into West Virginia today, sending temperatures below freezing in many sections and bringing occasional snow flurries.

At Charleston, the thermometer dropped off eight points between 8 a. m. and mid-afternoon to a low of 31 and kept on going down. Reports from other parts of the state indicated similar weather was being experienced.

Meanwhile, power linesmen and telephone repair crews had their hands full restoring service which was disrupted by the high winds of last night.

The little town of Ellamore, in central West Virginia, turned its electric lights back on after a night of darkness. The wind damaged the Lumber company power plant there.

Between Belington, Elkins, Parsons and Thomas telephone linemen managed to restore service which had been interrupted by the storm, and crews were busy around Morgantown erecting poles which had been blown down.

Streets in virtually every city were littered with small branches as a result of the wind, although there was no major damage reported.

# Collegians Play All-Stars Here Tonight

## SS. Peter & Paul Gym Is Scene of Double-Header

Dragons to Play Hyndman Eagles in Prelim at 7:30 o'clock

## FORMER SCHOLASTIC STARS TO SEE ACTION

## Cavanaugh's Collegians to Face Galaxy of Stars Under John Long

The Cumberland Collegians under the wing of Bobby Cavanaugh, mentor of Fort Hill's Sentinels, will wage warfare tonight at SS. Peter and Paul gym against a galaxy of present day collegians, sponsored by John J. Long, who will go into the basketball battle under the name of the College All-Stars.

Good Preliminary at 7:30

The game is scheduled to get under way at 8:30 o'clock following a preliminary which will see Pershing Rohrer's once defeated Cumberland Dragons hook up with the undefeated Hyndman Eagles at 7:30 o'clock. The Dragons, top amateur team of the city, bowed by one point in a return game with the Princess of Syracuse team at Keyser Monday night after winning over the Mineral Countians here last week by three points.

Four Allegany, three LaSalle and two Fort Hill graduates will see action with the College All-Stars in tonight's tilt. "Red" Miller, now at Marshall and Pete Lear, now at W. Va. U. will get a call at the forward posts with Jack Reed of Washington and Lee on call for guard duty, and Lloyd Boor of Georgia Tech to share center duties with John "Hink" Rowan, one of LaSalle's trio. Rowan is now at Villanova, will get into the game at forward. Fort Hill has Joe Wagner now at Frostburg State Teachers College to send in at forward and Buddy Henderson of V.P.L. to try to throttle the Collegians at guard.

The Collegians will probably start with Cessna and Proudfoot forwards; Morris, center; Henry and Koegel, guards.

Van Roy will referee.

**Team Has Split Even**

So far, the Collegians have won two games while losing the same number. Never have they been over .500 in battles won and lost.

Charles "Snapper" Morris, center and one-hand shot specialist, is far out in front in individual scoring with 50 points. "Snapper" has caged 21 field goals and eight of 13 fouls, and has registered the most doubledecks in any one tussle, seven. His foul average is next to the best, being surpassed only by the eight of 12 made by Delbert Proudfoot, forward.

Del Proudfoot Runnerup

Proudfoot is runnerup in scoring with 30 markers although he and Melvin "Newt" Henry, guard, and Edgar "Ike" Cessna, forward, each have tallied 11 field goals. Henry is third with 26 points and Cessna fourth with 23.

Herman Koegel, Henry's running mate at guard and the other regular, is fifth with eight points. Freddie Hamilton, reserve guard, is sixth with a half-dozen counters; Adam Sterne, second-string forward, seventh with five, and George Rice and Russ Minnick, substitute guard and center, respectively, tied for eighth with two markers. Ray Swach, the other member of the

## Sporting News Picks Baseball's 'Men of the Year'

You had your way on Christmas Day  
And Monday, too, perhaps  
For yesterday you looked so low  
Your chin was on your laps

You flew right high on Christmas Eve  
All Sunday you forgot  
You brightened Monday, you believe  
But Tuesday your sun set

This morning did you know yourself  
When you did first awake,  
Or are you paying the piper yet  
With a hang-over headache?

They're not the Christmas bells you hear!  
That's whiskey, mister, mixed with beer.

Is this the end, or must we fear  
The morning of the bright New Year?

Like the old song, "If We Had Our Way, We Would Never Grow Old," if we had had our way we never would have grown old enough to trim a Christmas tree which rates as the tops great American indoor sport with us since Saturday night, or rather Sunday morning. Checking at the drug stores we find there's not so much linament as sedatives sold on Christmas morning or the morning after but linament does have an increase in demand. Most of the buyers are mothers and fathers who learn too late that stooping and stretching to hang Christmas balls, taping toys and what-have-you in the way of making S. Claus' visit a reality for the kids exacts as much energy as ever an athlete put out in establishing a world's record at anything. Not that we've ever established a world's record at anything but we were too tired after doing our Christmas eve chores to pose for a cigarette ad, and we have seen world record-holding athletes doing that immediately after setting a new mark in this or that.

Which makes us wonder why Colonel Jake Ruppert of the Yankees is hesitating about what soap suds company will buy the broadcasting rights for his Yankees' games when he has his own "suds" to advertise. Maybe the Colonel figures that the Yanks in reality are advertising enough for the energy producing qualities of the beer he brews.

Getting back to having one's own way we'd have the Pittsburgh Pirates win the National League pennant and World Series play-off this year if our wish could make it so. And then we'd feel happy in presenting that circumstance to Rev. Father Benedict Wick over at SS. Peter & Paul monastery for a fiftieth anniversary present. Father Benedict has always been the Pirates' No. 1 rooter with us since we blew into town. In fact the Pirates were just one of the other clubs in the National League with until Father Benedict got to us.

So far, the Collegians have won two games while losing the same number. Never have they been over .500 in battles won and lost.

Charles "Snapper" Morris, center and one-hand shot specialist, is far out in front in individual scoring with 50 points. "Snapper" has caged 21 field goals and eight of 13 fouls, and has registered the most doubledecks in any one tussle, seven. His foul average is next to the best, being surpassed only by the eight of 12 made by Delbert Proudfoot, forward.

The Collegians will probably start with Cessna and Proudfoot forwards; Morris, center; Henry and Koegel, guards.

Van Roy will referee.

# Collegians Play All-Stars Here Tonight

## SS. Peter & Paul Gym Is Scene of Double-Header

Dragons to Play Hyndman Eagles in Prelim at 7:30 o'clock

## FORMER SCHOLASTIC STARS TO SEE ACTION

Cavanaugh's Collegians to Face Galaxy of Stars Under John Long

The Cumberland Collegians under the wing of Bobby Cavanaugh, mentor of Fort Hill's Sentinels, will wage warfare tonight at SS. Peter and Paul gym against a galaxy of present day collegians, sponsored by John J. Long, who will go into the basketball battle under the name of the College All-Stars.

Good Preliminary at 7:30

The game is scheduled to get under way at 8:30 o'clock, following a preliminary which will see Pershing Rohrer's once defeated Cumberland Dragons hook up with the undefeated Hyndman Eagles at 7:30 o'clock. The Dragons top amateur team of the city, bowed by one point in a return game with the Princess of Syracuse team at Keyser Monday night after winning over the Mineral Countians here last week by three points.

Four Allegany, three LaSalle and two Fort Hill graduates will see action with the College All-Stars in tonight's tilt. "Red" Miller, now at Marshall and Pete Lear, now at W. Va. U. will get a call at the forward posts with Jack Reed of Washington and Lee on call for guard duty, and Lloyd Boor of Georgia Tech to share center duties with John "Hink" Rowan, one of LaSalle's trio. Rowan is now at St. Francis with Ed Meconi who will team up with him tonight. Another former LaSalle luminary, Jimmy Stakeem, who is starring now at Villanova, will get into the game at forward. Fort Hill has Joe Wagner now at Frostburg State Teachers College to send in at forward and Buddy Henderson of V.P.L. to try to throttle the Collegians at guard.

The Collegians will probably start with Cessna and Proudfoot forwards; Morris, center; Henry and Keegle, guards.

Van Roby will referee.

Del Proudfoot Runnerup

Proudfoot is runnerup in scoring with 30 markers although he and Melvin "Newt" Henry, guard, and Edgar "Ike" Cessna, forward, each have tallied 11 field goals. Henry is third with 26 points and Cessna fourth with 23.

Herman Koegel, Henry's running mate at guard and the other regular, is fifth with eight points. Freddie Hamilton, reserve guard, is sixth with a half-dozen counters; Adam Sterne, second-string forward, seventh with five, and George Rice and Russ Minnick, substitute guard and center, respectively, tied for eighth with two markers. ## Parade Rest

Previews, Reviews and Your Views of The Parade of Sports.

You had your way on Christmas Day  
And Monday, too, perhaps  
For yesterday you looked so low  
Your chins were on your laps

You flew right high on Christmas Eve;  
All Sunday you forget  
You brightened Monday, you believe  
But Tuesday your sun set

This morning did you know yourself?  
When you did first awake,  
Or are you paying the piper yet  
With a hang-over headache?

They're not the Christmas bells you hear!  
That's whiskey, mister, mixed with beer.  
Is this the end, or must we weep?  
The morning of the bright New Year?

Like the old song, "If We Had Our Way, We Would Never Grow Old," if we had had our way we never would have grown old enough to trim a Christmas tree which stands as the tops great American indoor sport with us since Saturday night, or rather Sunday morning. Checking at the drug stores we find there's not so much linament as sedatives sold on Christmas morning or the morning after but linament does have an increase in demand. Most of the buyers are mothers and fathers who learn too late that stooping and stretching to hang Christmas balls, totting toys and what-have-you in the way of making S. Claus' visit a reality for the kids exacts as much energy as ever an athlete put out in establishing a world's record at anything. Not that we've ever established a world's record at anything but we were too tired after doing our Christmas eve chores to pose for a cigarette ad, and we have seen world record-holding athletes doing that immediately after setting a new mark in this or that.

Which makes us wonder why Colonel Jake Ruppert of the Yankees is hesitating about what soap suds company will buy the broadcasting rights for his "Yankees" games when he has his own "suds" to advertise. Maybe the Colonel figures that the Yanks in reality are advertising enough for the energy producing qualities of the beer he brews.

Getting back to having one's own way we'd have the Pittsburgh Pirates win the National League pennant and World Series play-off this year if our wish could make it so. And then we'd feel happy in presenting that circumstance to Rev. Father Benedict Wick over at SS. Peter & Paul monastery for his unprecedent feat in pitching two consecutive no-hit, no-run games for the Cincinnati Reds.

Giles, Vice-President and General Manager of the Reds, won the designation as top executive for developing the Cincinnati farm system, assembling many of the team's players and helping club morale by his amicable salary negotiations. He also ably handled the All-Star National-American League Game.

Corresponding minor league honors went to McKenna, Secretary and Business Manager of St. Paul of the American Association, who was credited with the team's rise from seventh place in 1937 to the pennant in 1938. St. Paul had the highest attendance record in its history this past season.

Richards won recognition among Minor League Managers for his record with Atlanta, which won the Southern Association Championship, both playoffs and the Dixie series.

Hutchinson, Seattle Pacific Coast League pitcher recently purchased by the Detroit Tigers for \$50,000 and several players, was named the outstanding performer in the Minors. He won 25 games and lost seven.

The Collegians will probably start with Cessna and Proudfoot forwards; Morris, center; Henry and Keegle, guards.

Van Roby will referee.

## Court Grants 'Quick Wedding' To Pastor, 61

Frostburg Teacher Will Become Bride Today Without Waiting

The statutory ban on hasty marriages was lifted for the first time in Allegany county yesterday when a 61-year-old Rhode Island preacher and a middle-aged Frostburg school teacher were granted a marriage license almost immediately on application.

The rule requiring a 48-hour wait between application for a license and its issuance was waived by court order.

The license was for the Rev. George Elmer Lamphere, pastor of Oaklawn Baptist church, Providence, R. I., and Miss Katherine May Simons, teacher at Beall high school, Frostburg.

Their marriage is understood to be the culmination of a friendship of many years' standing.

### Both Judges Sign Order

The license was applied for at 10:40 a. m. and issued less than an hour later upon receipt by Robert Jackson, clerk of the court, of an authorizing order signed by Chief Judge D. Lindley Sloan and Associate Judge William A. Huster.

The order pointed out that it appeared to the judges that "this is a case wherein the 48-hour provision . . . might be waived" and directed that the clerk grant the license "immediately."

The couple is to be married today at 4 p. m. at the bride's home, 52 West Lee street, Frostburg, by the Rev. Edgar W. Beckett, pastor of the First M. E. church.

The bride, who for many years has taught the seventh and eighth grades at Beall high school, is the daughter of Mrs. Katherine Simons and the late William R. Simons.

### Former Eckhart Pastor

The bridegroom, a widower, was pastor of the Eckhart Baptist church for two years, 1911-12.

It was understood that the waiver of the 48-hour rule was to enable the Rev. Mr. Lamphere to return to his charge at Oaklawn at an early date.

The 48-hour law provides that "any judge of the Circuit Court of the county in which application (for a marriage license) is made, for good and sufficient cause shown, may, by an order in writing signed by him, authorize the clerk to deliver such license at any time after the application therefor."

## Stagecoach Found To Race Engine

A stagecoach has at last been found for the history-making race to be run here Jan. 5 between the B&O's puffing old locomotive, William Galloway, and four of the fastest horses Tom Malmphy can harness up.

The coach which will be used is the property of the Railway Express Co. and has been on exhibition in New York.

Arrangements for its use were completed yesterday in New York by Robert Van Sant, director of public relations for the B&O.

The coach is supposed to be in excellent condition, despite the fact that it once rolled over the plains far beyond the range of the railroads of the 1850's.

It was also revealed yesterday that the horses will be especially shod with rubber-covered horse-shoes to protect their hooves as they go tearing over the concrete pavement of Henderson boulevard.

Promoters of the big race, which is to ballyhoo the first showing of "Stand Up and Fight," Metro-Goldwyn-Mayer picture about Cumberland, and also to draw shoppers to town for January clearance sales at the same time, are asking now for nothing more than the cooperation of the weather man.

Should there be ice and snow such as covers the street today, going would be tough for the horses, and their rubber-covered shoes would have to be removed.

## Forty Years Ago

It was reported that the West Virginia Pulp and Paper Co. was going to move away from Luke because of indictments charging it with pollution of the Potomac river. (But it's still there today.)

Many people from the George's Creek towns came to Cumberland the Monday after Christmas, and the drama at the Academy of Music, titled "Only a Farmer's Daughter," played to a record-breaking crowd.

The B. & O. was preparing to put a large gang of men at work straightening the tracks in Doe Gully.

Advertisement of the Times — "If you want a nice closed carriage for the County Ball call at Cook Bros., the finest equipped livery in the city."

**Births**

Mr. and Mrs. Floyd Morris of Hyndman, Pa., announce the birth of a son yesterday morning at Memorial hospital.

## After 50 Years in His Service

AFTER 50 YEARS of priesthood, Very Rev. Father Benedict still looks forward, not backward. He is shown here at the altar following the solemn high mass at St. Peter and Paul's church yesterday climaxing his Golden Jubilee celebration. The photographer made this 'angle shot' from the floor.—News Staff Photo.

## City Pays \$50 To Girl Who Fell On Icy Pavement

## Father Benedict Looks Forward Still After 50 Years of Service

The bright eyes of the Very Rev. Father Benedict still twinkled from above his white beard last night as friends came to congratulate the beloved man of God upon his completion of 50 years in the priesthood.

The girl, Jacqueline Barnett, of Robbins Terrace, fell on Cumberland street while walking from West Side school, breaking her leg.

Her attorneys based their case on a city ordinance which requires all property owners to clean off snow 12 hours after it has fallen. They charged the city with negligence in not enforcing this ordinance.

## Deaths

### Mrs. Catherine E. Lohr

Mrs. Catherine Ellen Lohr, widow, died last night at her home, 39 Green street, Frostburg. She was 83 years old.

Mrs. Lohr was a member of St. Paul's Lutheran Church of Frostburg.

Surviving are five children, Milton and Chester, of Zihlman, Md.; Alvin of Linton; Ind.; Frank, of Largo, Fla., and John Lohr, of Frostburg; one sister, Mrs. Mary Raley, of Lonacong; 17 grandchildren and three great grandchildren.

Mrs. Lohr was a daughter of the late Mr. and Mrs. Peter Morgan, of Cumberland.

Surviving are a daughter, Mrs. W. R. Eney, of Baltimore; three sisters, Mrs. Bertie M. Alderman, of Baltimore and Mrs. Stella Wilson, of Cumberland, and one brother, William A. Morgan, of Jennings, Md.

### Charles Robinette

Charles Robinette, well known retired farmer, died Christmas night at his home on Iron's Mountain following a short illness. He was 73 years old.

Surviving are seven children, Ira, Theodora, Anderson, Millard, Emory and Blanche Robinette, and Mrs. Mae Garlit; two brothers, Samuel and William Robinette, and one sister, Mrs. H. Twigg, of Pittsburgh.

### Sister Mary Charissima

Relatives here have been advised of the death of Sister Mary Charissima last Thursday at Glen-arm, Md., after a lingering illness.

She was formerly Triscilla Sheridan, daughter of Mr. and Mrs. John Sheridan, of Mt. Savage. She had been a member of the Notre Dame Order for 35 years.

Burial was in the cemetery of that order last Saturday.

Immediate survivors are Mrs. Rex Hoop and Miss Anne Sheridan, of Baltimore, and Mrs. Mary Monahan, of Mt. Savage.

## Fraud Charged In Cemetery Lot Partnership

## Court Appoints Receiver for Cedarwood Development Company

Charging fraud and mismanagement by his associates, a Cumberland grocer had gone into court today in an effort to dissolve a partnership formed to sell cemetery lots.

The litigant, Otis Wisman, in an equity suit filed in Circuit court against John J. Kramer and Paul W. Douglas, both of New York, cites obligations totaling nearly \$2,000 against the partnership without any return to him whatever.

Seeking a receivership, he asks also that land deeded by him to the partnership be returned to him and that an injunction issue forbidding the defendants to sell or dispose of any further property or contract additional debts.

### Firm Not Formed

The lots, some of which have been sold, are located on the property known as the "Browning farm," near Nave's cross-roads.

The partners were to form a firm known as the Cedarwood Development company, but this step was never taken, the bill of complaint sets forth.

Mr. Wisman, through his attorney, Thomas L. Richards, also charges Kramer with having misappropriated stocks and money entrusted to him.

The bill asserts that the defendants have "fraudulently mismanaged the business" and without Wisman's "knowledge, advice, or consent have recklessly and wastefully contracted a large number of obligations in the county which appear as obligations of the partnership."

In an order signed by Judge William A. Huster, Mr. Richards was named trustee for the partnership and directed to take charge of the real estate, books and papers of the parties to the suit.

An injunction was also issued enjoining the defendants from any further activity in the business.

The order also directs the defendants to show cause before Jan. 25 why the deed should not be set aside and the property reconveyed to Wisman and the partnership dissolved.

Kramer is to show cause why he should not be held accountable for the alleged misappropriation of money and stocks belonging to Wisman.

## Hayloft Fall Kills Farmer

An 18-foot-fall from a hayloft on the King Anderson farm caused the death yesterday of Duncan Gillum, 58-year-old Bedford road farmer.

Injured Monday after he fell from the loft, Gillum was treated by a Centerville, Md., doctor who advised his family to bring him to a Cumberland hospital.

It is through the confessional, in which he has been most zealously active, that so many persons, old and young, have found in him a trusted friend and guide.

Father Benedict appeared last night to have borne up well under the excitement and strain attendant under any such celebration, although he was released from the hospital only two weeks ago after an attack of erysipelas.

### Many Visitors Present

Many visitors were here for the ceremonies. Speakers at the dinner yesterday, which was arranged by the ladies of the parish, were Father Patrick, O. M. Cap., of Herman, Pa., professor at St. Fidelis Seminary, whose subject was, "Father Benedict — Our Confessor and Teacher"; Father Scarpati, of St. Peter's church, Westerport, whose subject was "Father Benedict and the People of Cumberland."

Officers of the solemn high mass yesterday were as follows:

Celebrant, Very Rev. Father Benedict, O. M. Cap.

Arch-Priest, Very Rev. Ignatius Deacon, Rev. Father Urban, O. M. Cap., Capuchin College, Washington, D. C.

Sub-deacon, Rev. Father Patrick, O. M. Cap., Herman, Pa.

Master of ceremonies, Rev. Father David, O. M. Cap., Pittsburgh, Pa.

The sermon was preached by Very Rev. Father Sigmund, O. M. Cap., of Pittsburgh.

### Sgt. A Student

A student he has always been, and he still reads 100 volumes a year, jotting down careful notes on what he reads.

Even when he was a lad, the classics and priestly studies fascinated him, and later led him to the great universities of Wuerzburg, in South Germany, and Innsbruck, in old Austria, where, as throughout his life, he studied not only books, of music, novels, young people, and art.

### Winter Preparations Land Man in Court

At least one person in Cumberland must have suspected that cold weather was heading this way and made preparations for it.

Pleading guilty to the charge of stealing an acquaintance's overcoat, valued at \$15, Sylvester Cooper, colored, of Central avenue, was sentenced yesterday in Justice-of-the-Peace Court to three months in the Maryland House of Correction.

His sentence was suspended on condition he refrain from all alcoholic beverages for a period of two years and give back the coat.

The company's petition, signed by John Anthony, sets forth that the corporation is indebted to numerous persons and unable to meet its obligations in full.

### Deed of Trust Filed By Confectionery Store

Citing its inability to pay its obligations in full, the Royal Confectionery, Inc., operator of a Baltimore street candy store, has made a deed of trust for the benefit of its creditors.

The assets were assigned to Edward J. Ryan as trustee, who was placed under bond of \$5,000 after filing of a petition in Circuit court.

An order signed by Judge William A. Huster directs that the stock, fixtures etc., be appraised and grants permission for the trustee to operate the business until Jan. 10.
